

NATIONAL BORDER PATROL COUNCIL

BRANDON JUDD / President

2185 West Magee Road, Suite 125 - Tucson, AZ 85742

PROTECTING THOSE WHO PROTECT OUR BORDERS

September 15, 2021

Dear Mr. Lamon,

I am pleased to inform you that the National Border Patrol Council (NBPC) is endorsing your candidacy for United States Senate representing the state of Arizona.

Law enforcement officers put on uniforms every day out of a desire to serve and protect their fellow citizens. You share that desire, and we know you will support law enforcement in its mission to serve. The "defund the police" movement so common amongst Democrats, harms our citizens and hurts are children. We must have strong leaders like yourself who will be willing to push back against the Washington, D.C. rhetoric and look out for the safety and security of Arizona.

The rule of law is vitally important to Arizonans. They know and understand that without the proper enforcement of laws, society does not function. The NBPC is confident in your ability to protect not only the people of this great state, but all United States citizens and persons in the country legally, and this protection starts with securing our borders. We know you are committed to providing the support and resources needed to the men and women who work so hard to keep our borders safe.

Mark Kelly's record proves he has failed Arizona, and after reviewing all the candidates for U.S. Senate you are the clear choice.

Once again, and on behalf of the members of the National Border Patrol Council, we are pleased to support you in your bid to become a U.S. Senator for Arizona.

Sincerely,

Brandon Judd
